

### **Profile: Universidad Pública de Navarra, Spain (UPNA)**

Created in 1987 by the Parliament of Navarre, the UPNA is a relatively small public university in Spain, with campuses in Pamplona and Tudela. Academically, it focuses on Engineering, the Natural Sciences, Health Sciences, Social Sciences and Law, and is a markedly technical university. It is one of Spain's leading universities in terms of teaching, research and transfer, occupying, along with 16 other Spanish public universities, the upper quartile when it comes to overall productivity (2017 ISSUE ranking, BBVA-IVIE).<sup>1</sup>

The University is made up of three campuses: Arrosadía (Pamplona), Health Sciences (Pamplona) and Tudela (Tudela), and six centers:

- School of Economics and Business Administration
- Faculty of Human, Social and Educational Sciences
- Faculty of Law
- School of Industrial & ICT Engineering
- School of Agricultural Engineering and Biosciences
- Faculty of Health Sciences

#### Facts and figures<sup>2</sup>:

- 25 Bachelor's Degrees and 6 double degrees
- 8,431 students enrolled
- 27% study abroad
- 46 countries available for mobility
- 385 organizations for placements
- 1,104 researchers
- 159 research contracts
- 39,650 graduates

## Navarre High standard of living

UPNA is located in Navarre, a region with a high standard of living, south of the Pyrenees and close to the Bay of Biscay. Its main campus, the Arrosadia Campus, is in Pamplona, a quiet city with 250,000 inhabitants, worldwide known for the San Fermín festivals.

PISA Report (2016)	TOTAL	GDP per capita in PPS	2016	Unemployment Rate	2019
Navarra	515	Navarre	101	Navarre	8.19%
OECD	492	Spain	92	Spain	14.70%
		UE-27	100	UE-27	6.50%

### Sustainability

A pioneering region in the introduction and development of Renewable Energy, with many global companies and research centers

Navarre cleans up 100 % of its wastewater

Pamplona, the Green City: 19 m<sup>2</sup> of green areas/inhabitant

### Cost of living

Coin: euro (€)

Coffee outside the campus: 1.20 €

## If you decide to learn Spanish

### AT UPNA:

Undergraduate courses on Spanish language, culture and society 30 ECTS

### AT THE LANGUAGE CENTER:

## Undergraduate / Master 9 International programs (IP)

### ING School of Agricultural Engineers

#### Undergraduate

- Agricultural, Food and Rural Environment Engineering **IP**
- Innovation in Food Processes and Products
- Data Science
- Science
- Biotechnology
- Double Degree in Data Science and Management, Business Administration
- Double Degree in Agricultural, Food and Rural Environment - Engineering & Innovation on Food Processes & Products

#### Master

- Agricultural Engineering
- Geographic Information Systems and Remote Sensing
- Food Industry Technology and Sustainability
- Environmental Agrobiology
- Soils & Water Management
- Synthetic and Industrial Chemistry

### ING School of Industrial & ICT Engineering

#### Undergraduate

- Mechanical Engineering
- Electrical and Electronic Engineering
- Engineering in Industrial Technologies **IP**
- Engineering in Mechanical Design (Tudela campus)

### • Engineering in Telecommunications Technologies **IP**

### • Computer Engineering **IP**

- Biomedical Engineering
- Double Degree in Telecommunication Technologies - Engineering and Biomedical Engineering

#### Master

- Telecommunications Engineering
- Industrial Engineering
- DD Industrial Engineering and Business Management
- Computer Science
- Renewable Energy Engineering
- Biomedical Engineering
- Materials and Manufacturing Engineering
- Computational and Applied Mechanical Engineering
- Project Management
- Mathematical Modelling, Statistics and Computer -Science

### SAN Faculty of Health Sciences

#### Undergraduate

- Nursing
- Physiotherapy (Tudela campus)
- Psychology
- Medicine

#### Master

- Health Promotion & Social Development
- Health Science Research
- Public Health

### ECO School of Economics and Business Administration

#### Undergraduate

- Economics
- Double Degree in Economics, Management and Business Administration **IP**
- Double Degree in Management, Business Administration and Law **IP**
- Double Degree in Business Administration and Management, and Economics (international programme) **IP**
- Double Degree in Data Science and Management, Business Administration

#### Master

- Master's degree in Business Processes with Enterprise Resource Planning - ERP
- Business Management
- Business Economics, Organisation & Management

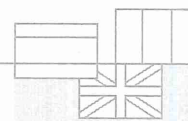

### JUR Faculty of Law

#### Undergraduate

- Law
- Labour Relations and Human Resources
- Double Degree in Business Adm. and Management, and Law

#### Master

- Access to the Legal Profession
- Occupational Health and Safety Private Property Law

## Languages of instruction

4 languages for undergraduate teaching:

Language	Courses

1,400 students

More than 150 students involved in mobility programmes each year

150 faculty members (85% doctors)

Student exchange agreements with universities from more than 30 countries

## Guest lecturer program

The school annually launches a call for invited professors to attract experts of recognized international prestige who actively participate in teaching in international programs. They are financed from specific collaborations to stays of one week duration.

## Programs and Masters

### Undergraduate

- Bachelor's degree in Management and Business Administration
- Bachelor's degree in Economics
- International Bachelor's degree in Management and Business Administration (100% in English)
- International Double Bachelor's degree in Economics, Management and Business Administration
- Double Bachelor's degree in Management, Business Administration and Law (international program)
- Double Bachelor's degree in Management, Business Administration and Law
- Double Bachelor's degree in Data Science and Management, Business Administration
- Bachelor's degree in Economics + English Learning Programme
- Bachelor's degree in Management and Business Administration + English Learning Programme

### Master

- Master's degree in Business Management
- Master's degree in Business Processes with Enterprise Resource Planning – ERP
- Master's degree in Business Economics, Organisation and Management-MMOBE (English)

## Research

The School has a high degree of involvement with the INARBE Institute (Institute for Advanced Research in Business and Economics), dedicated to the economic research of companies, markets and public policies.

## Courses in English

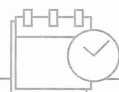

### Autumn semester

- International Trade
- Economic History II
- Natural Resource Economics
- Business Economics
- Introduction to Economics
- Introduction to Private Law
- Mathematics
- Financial Operations
- Organizational Design and Behavior
- Financial Accounting II
- Statistics II
- Macroeconomics I
- Optimization Theory / Quantitative Methods of Business Management
- Microeconomics II
- Financial Statement Analysis
- Marketing Management II
- Development Economics
- Economics of Health
- International Trade Management
- Macroeconomics IV / International Economics
- Philosophy and Theory of Law
- Leadership Development (online)

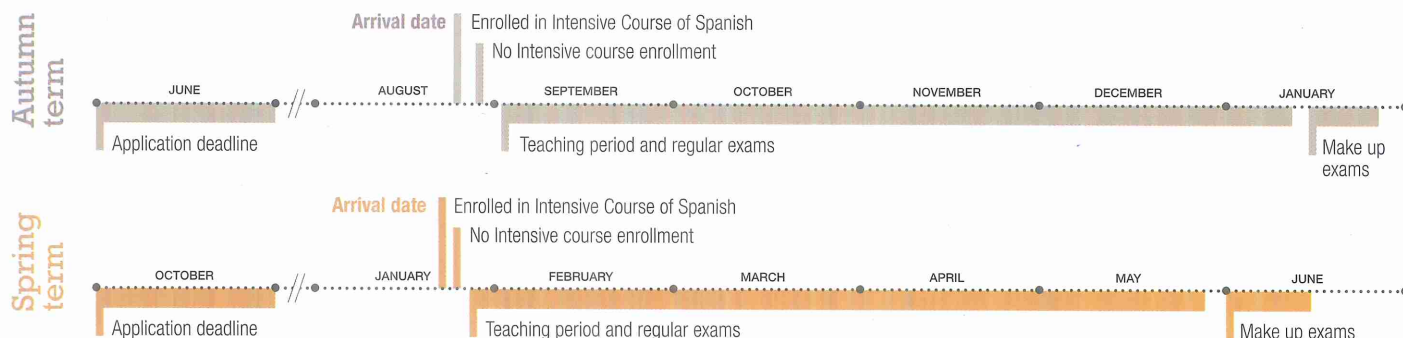

### Spring Semester

- Financial accounting I
- Applied Economics
- Statistics I
- Microeconomics
- Business Law
- Mathematics II
- Business Economic History
- Marketing Management I
- Econometrics I
- Financial Markets and Instruments
- Macroeconomics II
- Strategic Management
- Econometrics II
- Public Economics II
- Human Resources Management
- Marketing Research
- Green Logistics and Sustainable Management of Transportation (online)
- International and European Union Tax Law (online)
- International Protection of Human Rights (online)
- Environmental Economics
- Public International Law and International Relations
- European Union Law

## Research

Actively involved in **research** that has an **impact on the community**. Research topics:

- Education for health
- Memory and heritage
- Equality of gender
- Language acquisition in school contexts
- Sociology
- Subject specific teaching methods
- Innovation in education

## Languages

### Spanish

Courses to learn Spanish offered in both terms:

- Spanish Language
- Spanish culture
- Learning Spanish with literary texts
- Spanish for tourism

### English

EFL Courses from level B1 to level C2 including a course on Pronunciation

ESP Courses: Business English (B1 level)

### French

Courses in French as a foreign language from level A2 to level C1

### Basque

Introductory courses in Basque, native language in the community of Navarre.

### Courses in English

Over 50 undergraduate courses in English

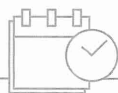

### Popular courses:

- Cultural Diversity, Fundamental Rights, Equality and Citizenship
- Groups, Group Interactions and Social Identity
- Educational Institutions
- Psychological Foundations: Individual and Social Environment

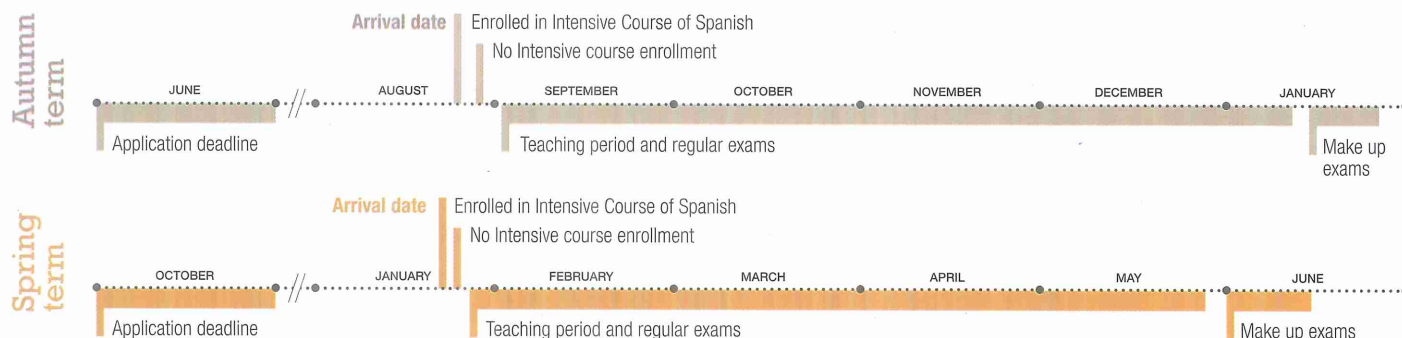

### Internships in (English/Spanish) bilingual schools

For students in the field of Education

### Programs and Masters

#### Undergraduate

- Law
- Labour Relations and Human Resources
- Double Bachelor's degree in Management, Business Administration and Law (International Program available)

#### Master

- Access to the Legal Profession
- Occupational Health and Safety
- Private Property Law

### Research

The Teaching and Research staff at the UPNA mainly performs its research through the departments and research groups. The Law School has the following groups:

- Public Administration
- Labour Law
- Public International Law and European Union Law
- Private Law
- European Private Law
- Public Law Studies
- Freedoms Community and International Taxation

### Five pillars for teaching

**Solid training as a lawyer (heading in the garnet color assigned to the Faculty)**

- Theoretical training
- Practical Training
- Legal specialization through Study Days, Seminars and Summer Courses

**Integral humanistic and values training**

- Critical interpretation of reality
- Preparation for social, legal, economic and political change
- Literature and Law Program

**Innovation and creativity**

- Debate League
- Awards of Legal Micro-reports and Brief Legal News

**Student role**

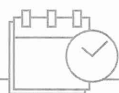

- Proactive learning
- Promotion of curriculum differentiation

**Training as a global Jurist in the line maintained by the Association of European Law Faculties (ELFA)**

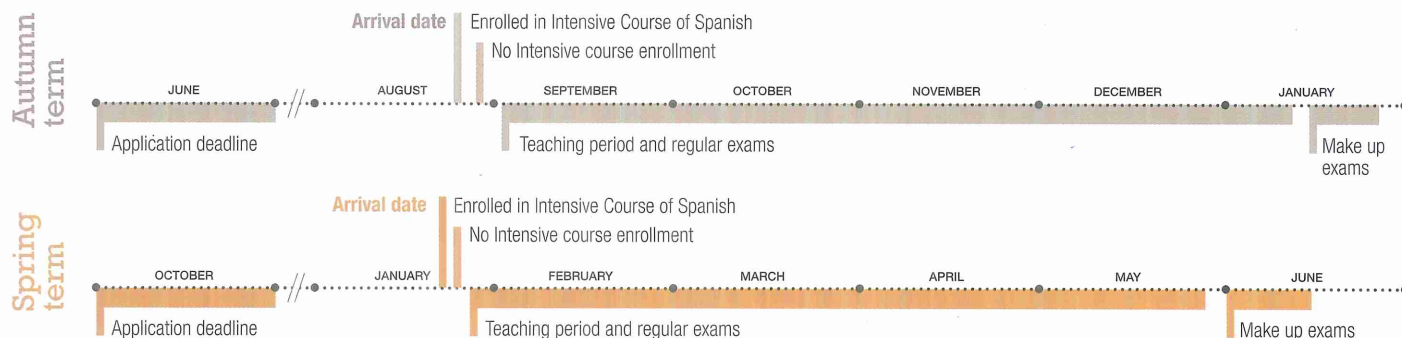

### Courses in English

- 12 Undergraduate courses in English
- Popular courses:
  - International Protection of Human Rights
  - Public International Law and International Relations
  - Philosophy and Theory of Law
  - Industrial Property and Antitrust Law

## The School

The School of Agricultural Engineering and Biosciences is the UPNA College devoted to training professionals in Agricultural Engineering, Food Innovation, Biotechnology, Science and Data Science.

## Methodology

The School of Agricultural Engineering and Biosciences has implemented in its degrees programs active teaching strategies, which include, for example, Service-Learning (SL) and Problem-Based Learning (PBL). SL is a pedagogical approach that uses a solidary experience in which lecturers, students and administration staff work together to meet the specific needs of a social organization, while learning on a topic of their discipline.

PBL is developed in several subjects, and in particular, the Master's degree in Agricultural Engineering (EUR-ACE), uses this teaching methodology in its

entirety: it is structured in five modules, each consisting in the realization of five integral Projects that must be taken by all Master's students.

## Internationalization

International students are welcome to all ETSIA programs, and can participate in classes offered in English and Spanish.

International students who wish to take their classes in English, have the offer indicated in the programs, which allows to develop complete semester programs (30 ECTS) in that language.

The School has a clear vocation of internationalization and includes within the official programs, a set of soft skills that complement the technical training with the aim of providing students and graduates with a social, ethical and sustainability commitment to society.

The degree in Agricultural, Food and Rural Environment Engineering has an offer of classes in

English, open to international students, allowing for getting an International Certification in their degree. Other courses in English and the possibility for developing end-of-studies thesis are also open to incoming students.

## Research

The research lines of professors and lecturers associated with the School of Agricultural Engineering and Biosciences degrees are very diverse, and correspond to their fields of expertise.

These range from the basic disciplines to the most applied, related to the degrees offered (Agriculture, Food Industry, Biotechnology, Science and Data Science). Many of these lines are developed within the framework of Research Institutes at UPNA:

# Faculty of Health Sciences

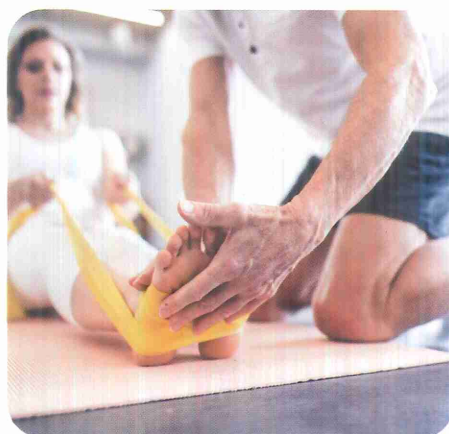

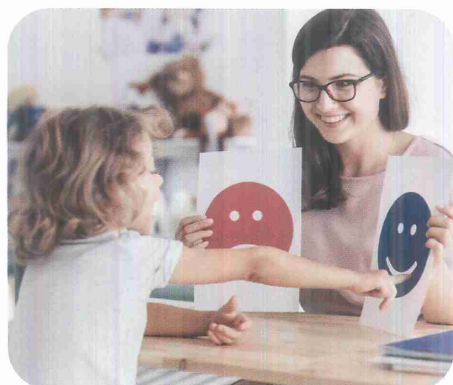

[www.unavarra.es/fac-cienciasdelasalud](http://www.unavarra.es/fac-cienciasdelasalud)  
Tel. (+34) 948 166 206  
[facultadccsalud@unavarra.es](mailto:facultadccsalud@unavarra.es)

The Faculty of Health Sciences is an academic center belonging to the Public University of Navarra, which is responsible for organizing the teaching and academic, administrative and management processes that lead to the obtaining of the official degree of Nursing Degree, Medicine Degree and Psychology Degree (Pamplona Campus) and Physiotherapy Degree (Tudela Campus).

The Faculty of Health Sciences in Pamplona was built in 1989-1990 academic year and is located in the area of the Hospital Complex of Navarra to facilitate students carrying out their care practices. The Physiotherapy building on Tudela Campus was built in 2008, a modern building that has an area of 1,174 m<sup>2</sup> and has highly equipped practice laboratories and comfortable classrooms to facilitate the study and learning environment.

## Programs and Masters

Undergraduate	ECTS theory	ECTS practice
• Nursing	150	90
• Medicine	309	51
• Physiotherapy (Tudela campus)	198	42
• Psychology	228	12
<b>Master</b>		
• Health Science Research	60	
• Public Health	60	

## Research

- Line 1**  
Biomechanics, Molecular Biology and Physiology of the human movement
- Line 2**  
Public Health, Nursing and Medicine
- Line 3**  
Research in Psychology and Psychiatry

## Clinical simulation

We have a high practical component. Our teachers are active professionals and hospital practices have a very personalized follow-up.

We have teaching methodologies in small groups that promote active learning: clinical reasoning, learning based on problem solving and a new system of Objective structured clinical examination (OSCE) based on clinical simulation.

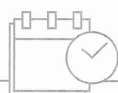

## Courses in English

English Friendly courses are offered EXCLUSIVELY for international exchange students.

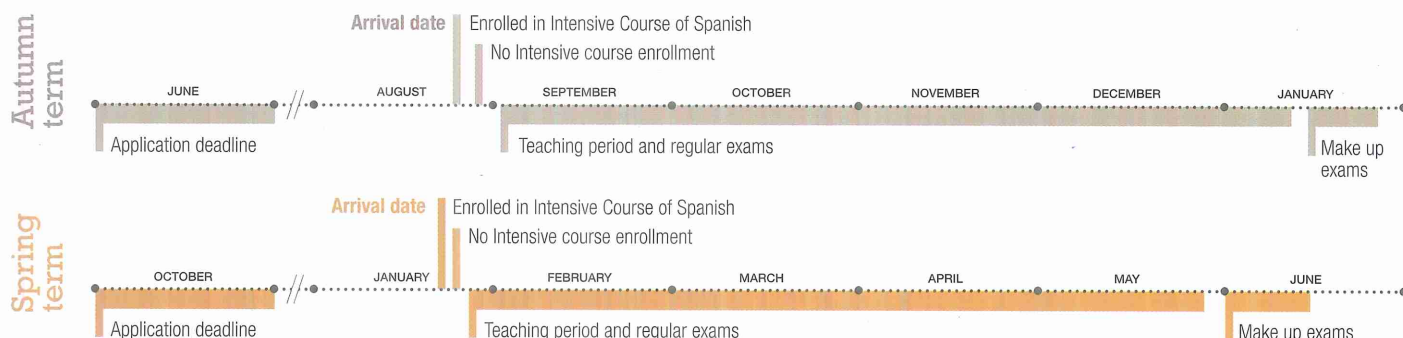

These are subjects taught in Spanish, but with materials and services in English. They are characterized by:

- The subjects are taught in the classroom in Spanish.
- The teaching materials provided to the student (notes, bibliographic material, ppt presentations, etc.) are in English.
- tutoring is in English.
- the final and partial assessment tests are in English.
